SMILE ON

with Clear Aligners

- ✓ Nearly invisible
- ✓ Comfortable to wear
- ✓ Stain resistant for a bright smile
- ✓ Easy to remove

4 EASY STEPS

1 Consultation
Talk to your doctor to find out about a treatment plan that is right for you.

2 Impression
Receive an impression or intraoral scan.

3 Clear Aligners
Your clear aligners are precisely produced just for you from material that ensures comfort.

4 Treatment
Your doctor will monitor your progress.

Why Clear Aligners?

Now you can have the smile you've always wanted at a price you feel good about. Our clear aligners are a comfortable, affordable, and effective way to straighten your teeth. They are made from FDA-cleared, premium material, and are expertly manufactured in the USA. Treatment plans are customized to your unique smile, so you get the results you want in as short a time as possible.

How long is the treatment?

Treatment times are different for everyone, but generally last less than one year. Your doctor will work with you to determine a timeline for your specific smile, and will decide if you should change your clear aligners every week or every two weeks.

What makes these clear aligners the ideal choice?

- Made with engineered dual shell plastic material for faster treatment
- Tear and stain resistant
- BPA and phthalates free
- Manufactured using FDA 510(k) cleared, MDSAP certified processes
- Manufactured in USA
